AMENDMENT TO THE CLAIMS

Claim 1. (original) A business method for providing wireless communications services to one or more users of the services, comprising:

charging the user a flat rate for a period of time; and

allowing the user unlimited access to the wireless communications services during the period of time.

Claim 2. (original) The method of Claim 1, further comprising determining the value of the flat rate without relation to individual minutes of use by the user of the wireless communications services during the period of time.

Claim 3. (original) The method of Claim 1, further comprising determining the value of the flat rate without relation to the individual number of calls made or received by the user during the period of time.

Claim 4. (original) The method of Claim 1, wherein the period of time further comprises a predetermined time period.

Claim 5. (original) The method of Claim 1, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$50 per month.

Claim 6. (original) The method of Claim 1, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month.

Claim 7. (original) The method of Claim 1, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 300 calls per month.

Claim 8. (original) The method of Claim 1, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 400 minutes of use per month.

Claim 9. (original) The method of Claim 1, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 600 minutes of use per month.

Claim 10. (original) The method of Claim 1, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 800 minutes of use per month.

Claim 11. (original) The method of Claim 1, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 1000 minutes of use per month.

Claim 12. (original) The method of Claim 1, further comprising adapting the wireless communications services as the user's primary telephone service.

Claim 13. (original) The method of Claim 1, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$40 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 200 minutes per month.

Claim 14. (original) The method of Claim 1, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 500 minutes per month.

Claim 15. (original) The method of Claim 1, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the operating expense per user is at a rate for the period of time that is proportional to a rate of less than or equal to about \$26 per month.

Claim 16. (original) The method of Claim 1, further comprising:

maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month; and

maintaining the margin for the operator of the wireless communications services at greater than or equal to about 15%.

Claim 17. (currently amended) The method of Claim 1, further comprising providing the wireless communications services primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays.

Claim 18. (original) The method of Claim 1, further comprising maintaining a user churn rate of less than about 4% for users who have retained the services for about three or more months.

Claim 19. (original) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time; and

providing unlimited access to the wireless communications services for the flat rate during the period of time.

Claim 20. (original) The method of Claim 19, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Claim 21. (original) The method of Claim 19, further comprising determining the value of the flat rate without relation to the number of calls made or received by the user during the period of time.

Claim 22. (original) The method of Claim 19, wherein the period of time further comprises a predetermined time period.

Claim 23. (original) The method of Claim 19, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$50 per month.

Claim 24. (original) The method of Claim 19, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month.

Claim 25. (original) The method of Claim 19, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 400 minutes of use per month.

Claim 26. (original) The method of Claim 19, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 600 minutes of use per month.

Claim 27. (original) The method of Claim 19, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 800 minutes of use per month.

Claim 28. (original) The method of Claim 19, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 1000 minutes of use per month.

Claim 29. (original) The method of Claim 19, further comprising adapting the wireless communications services as the user's primary telephone service.

Claim 30. (original) The method of Claim 19, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$40 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 200 minutes per month.

Claim 31. (original) The method of Claim 19, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 500 minutes per month.

Claim 32. (original) The method of Claim 19, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the operating expense per user is at a rate for the period of time that is proportional to a rate of less than or equal to about \$26 per month.

Claim 33. (original) The method of Claim 19, further comprising:

maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month; and

maintaining the margin for the operator of the wireless communications services at greater than or equal to about 15%.

Claim 34. (currently amended) The method of Claim 19, further comprising providing the wireless communications services primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays.

Claim 35. (original) The method of Claim 19, further comprising maintaining a user churn rate of less than about 4% for users who have retained the services for about three or more months.

Claim 36. (currently amended) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time;

providing unlimited access to the wireless communications services for the flat rate during the period of time; and

providing service to the user primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays.

Claim 37. (original) The method of Claim 36, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Claim 38. (original) The method of Claim 36, further comprising determining the value of the flat rate without relation to the number of calls made or received by the user during the period of time.

Claim 39. (original) The method of Claim 36, wherein the period of time further comprises a predetermined time period.

Claim 40. (original) The method of Claim 36, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$50 per month.

Claim 41. (original) The method of Claim 36, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month.

Claim 42. (original) The method of Claim 36, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 400 minutes of use per month.

Claim 43. (original) The method of Claim 36, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 600 minutes of use per month.

Claim 44. (original) The method of Claim 36, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 800 minutes of use per month.

Claim 45. (original) The method of Claim 36, further comprising allowing use at a rate for the period of time that is proportional to a rate of more than or equal to about 1000 minutes of use per month.

Claim 46. (original) The method of Claim 36, further comprising adapting the wireless communications services as the user's primary telephone service.

Claim 47. (original) The method of Claim 36, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$40 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 200 minutes per month.

Claim 48. (original) The method of Claim 36, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the average minutes of use of the services per user is at a rate for the period of time that is proportional to a rate of greater than or equal to about 500 minutes per month.

Claim 49. (original) The method of Claim 36, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to

about \$30 per month, and wherein the operating expense per user is at a rate for the period of time that is proportional to a rate of less than or equal to about \$26 per month.

Claim 50. (original) The method of Claim 36, further comprising:

maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month; and

maintaining the margin for the operator of the wireless communications services at greater than or equal to about 15%.

Claim 51. (original) The method of Claim 36, further comprising maintaining a user churn rate of less than about 4% for users who have retained the services for about three or more months.

Claim 52. (currently amended) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time;

providing unlimited access to the wireless communications services for the flat rate during the period of time;

providing service to the user primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays; and

adapting the wireless communications services as the user's primary telephone service.

Claim 53. (currently amended) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time;

providing unlimited access to the wireless communications services for the flat rate during the period of time; and

providing service to the user primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays, and

wherein the user uses the services at a rate for the period of time that is proportional to a rate of more than or equal to about 800 minutes per month.

Claim 54. (currently amended) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time;

providing unlimited access to the wireless communications services for the flat rate during the period of time;

providing services to the user primarily ~~in~~ from limited geographic areas in which the user substantially lives, works, and plays;

providing services to the user at a rate that is proportional to a rate of more than or equal to about 500 minutes per month;

rendering charges to the user substantially in advance of receipt of the services; and

receiving payment from the user substantially in advance of receipt of the services.

Claim 55. (original) The method of Claim 54, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Claim 56. (original) The method of Claim 54, further comprising determining the value of the flat rate without relation to the number of calls made or received by the user during the period of time.

Claim 57. (original) The method of Claim 54, wherein the period of time further comprises a predetermined time period.

Claim 58. (original) The method of Claim 54, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$50 per month.

Claim 59. (original) The method of Claim 54, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month.

Claim 60. (original) The method of Claim 54, further comprising adapting the wireless communications services as the user's primary telephone service.

Claim 61. (original) The method of Claim 54, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal

to about \$30 per month, and wherein the operating expense per user is at a rate for the period of time that is proportional to a rate of less than or equal to about \$26 per month.

Claim 62. (original) The method of Claim 54, further comprising:

maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month; and

maintaining the margin for the operator of the wireless communications services at greater than or equal to about 15%.

Claim 63. (original) The method of Claim 54, further comprising maintaining a user churn rate of less than about 4% for users who have retained the services for about three or more months.

Claim 64. (currently amended) A business method for providing wireless communications services to one or more subscribers in return for payment of a charge, comprising:

determining a flat rate charge for the services;

determining a period of time within which the flat rate charge shall apply;

determining the user's charge based upon the flat rate for the period of time;

providing the user with a mobile handset having a limited standardized set of features and functions;

providing unlimited access to the wireless communications services for the flat rate during the period of time;

providing the services to the user primarily ~~in~~ from limited geographic areas in which the user lives, works, and plays;

providing the user with a use rate for the period of time that is proportional to a rate of more than or equal to about 500 minutes of use of the services per month; rendering the services to the user without requiring the user to execute a presubscription agreement;

rendering charges to the user in a billing statement that does not include detailed records of the user's calls;

rendering charges to the user substantially in advance of receipt by the user of the services;
and

receiving payment from the user substantially in advance of receipt by the user of the services.

Claim 65. (original) The method of Claim 64, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Claim 66. (original) The method of Claim 64, further comprising determining the value of the flat rate without relation to the number of calls made or received by the user during the period of time.

Claim 67. (original) The method of Claim 64, wherein the period of time further comprises a predetermined time period.

Claim 68. (original) The method of Claim 64, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$50 per month.

Claim 69. (original) The method of Claim 64, further comprising charging a flat rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month.

Claim 70. (original) The method of Claim 64, further comprising adapting the wireless communications services as the user's primary telephone service.

Claim 71. (original) The method of Claim 64, further comprising maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month, and wherein the operating expense per user is at a rate for the period of time that is proportional to a rate of less than or equal to about \$26 per month.

Claim 72. (original) The method of Claim 64, further comprising:

maintaining the average revenue per user at a rate for the period of time that is proportional to a rate of less than or equal to about \$30 per month; and

maintaining the margin for the operator of the wireless communications services at greater than or equal to about 15%.

Claim 73. (original) The method of Claim 64, further comprising maintaining a user churn rate of less than about 4% for users who have retained the services for about three or more months.
